

Thank you for purchasing a license to use this set of high-quality profiles for the Kemper-Profiling-Amp.

You can freely use this profiles to create any kind of music, soundtracks or even #1 hits or whatever you like.

As with similar products - all profiles are copyright protected by law - you do not own them - you purchased only a license to use them.

A part of your name and/or your ordering number may be stored in the profiles.

Please support our work by NOT sharing this profiles or any modifications of them.

Note:

Please make a backup of your own profiles before you install any of the profiles from this pack.

Please do not rename or modify any of the profiles with an external editor since it could crash your Kemper.

(This is true for all profiles/rigs not only for ours)

How to install?

- 1) Prepare a USB stick according to the user manual
- 2) On the USB stick you'll find a folder 'Shared' (if not - goto step 1)
- 3) Copy the profiles you like to import into this folder (do not create any subdirectories)
- 4) Import the profiles/rigs according to the user manual
- 5) You'll find your new profiles/rigs by name (starting with 'AH') or by User ('Soundside.de')

Profiles of two high quality tube stomp boxes with inbuilt speaker simulation.

- 1) BlackStar HT-Dual
- 2) Damage Control Womanizer (Demonizer)

Directory '01-Raw-Profiles-BStar

=====

C1=Channel1 (Clean)
C2=Channel1 (Crunch)
C3=Channel2 (HighGain)

Gxx = Gain knob at clock position
e.g. G12 = 12:00

ISF knob normally full left.
I12 = 12:00
I17 = max (full right)

Directory '02-BStar-Mods'

=====

Here are some modifications of the above profiles created by us.

Directory '03-Raw-Profiles-Woman'

=====

C1=Channel1 (Crunch)
C2=Channel1 (Nuclear Footswitch activated)

Gxx = Gain knob at clock position
e.g. G12 = 12:00

Directory '04-Woman Mods'

=====

Here are some modifications of the above profiles created by us.
Some very heavy profiles - to sound like the 'Demonizer' from DamageControl or
even beyond that.

Note:

You can combine the Amp or Cabinet models found in this pack with other Amp and/
or Cabinet profiles in your KPA.
