
Thank you for purchasing a license to use this set of high-quality profiles for the Kemper-Profiling-Amp.

You can freely use this profiles to create any kind of music, soundtracks or even #1 hits or whatever you like.

As with similar products - all profiles are copyright protected by law - you do not own them - you purchased only a license to use them.

A part of your name and/or your ordering number may be stored in the profiles. Please support our work by NOT sharing this profiles or any modifications of them.

Note:

Please make a backup of your own profiles before you install any of the profiles from this pack.

Please do not rename or modify any of the profiles with an external editor since it could crash your Kemper.

(This is true for all profiles/rigs not only for ours)

How to install?

- 1) Prepare a USB stick according to the user manual
- 2) On the USB stick you'll find a folder 'Shared' (if not goto step 1)
- 3) Copy the profiles you like to import into this folder (do not create any subdirectories)
- 4) Import the profiles/rigs according to the user manual
- 5) You'll find your new profiles/rigs by name (starting with 'AH') or by User ('Soundside.de')

Profiles of a Diezel VH4 via an 4x12" V30 cabinet at various settings. A Rode NT1000 microphone was used for all this profiles.

This profiles were created at gig level - yes it was VERY loud. Feel free to add effects to your liking.

Directory '01-Raw-Profiles'

The VH4 is a 4 channel amp Channel 1 is for clean sounds. Channel 2 is the british channel Channel 3 high gain rhythm Channel 4 high gain lead

Naming convention:

DZL C1 09 121215PB

DZL (is for the Diezel VH4 - so all profiles are close together)

C1 (Channel 1)

09 (Gain Setting - clock value)

121215 (The values of the 3 knobs: bass, mid ,treble)

P (Presence boosted)

B (Bright switch activated - only available for channel 1&2)

Note:

In case you like to increase the presence feel free to activate slot 'x' in the KPA.

Directory '04-Mods'

Here are some modifications of the above profiles created by us.

Note:

All profiles were make in 50Watt, Bold, Diode mode.

If you like to get the 'Recto Tracking' feel - use the KPA 'sag' parameter in the amp block.

You can combine the Amp or Cabinet models found in this pack with other Amp and/ or Cabinet profiles in your KPA.
